## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 3 – 4, 6, 11 – 12, 14, 19 and 21 are allowed.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 – 2, 5, 7 – 10, 13, 15 – 18, 20 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. 2002/0174360 (Ikeda).

With respect to claims 1 – 2, 5, 7 – 10, 13, 15 – 18, 20 and 22 Ikeda teaches a method and system for automated enrollment and activation of a telematics unit (see Fig. 13 and paragraphs 0281 – 0286, 0289, 0294, 0297 and 0298). Note also paragraphs 0315 and 0316.

### ***Response to Arguments***

Applicant's arguments filed 07/11/2007 have been fully considered but are not deemed persuasive to any error in the rejection above.

Applicant argues that Ikeda does not set a call trigger that activates a function based on a logical, physical or temporal event. Applicant states that Ikeda merely teaches that a service may be transmitted to a navigation system of a user as the service becomes available. This appears to be a logical event. With computer

systems, one is usually notified that a system will be upgraded or down on a specific date and time in order for a service to be completed.

With respect to unconfigured or partially configured, if a new service or update is to be sent to the navigation system, prior to the new service or update is received, one could argue, at least, that the device is only partially configured.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
